Cubism, Stieglitz, and the Early Poetry of William Carlos Williams

Bram Dijkstra

prior stories of William Carlos Williams have tended to appear just for the literary echoes in his verse. In response to Bram Dijkstra, the recent routine within the visible arts throughout the Twenties affected Williams's paintings as a lot as, if no more than, the recent writing of the period. Dijkstra catches the buzz of this era of progressive art, unearths the interactions among writers and painters, and indicates specifically the explicit and common effect this global had on Williams's early writings.

attention-grabbing examine the avant-garde artwork scene in NYC on the flip of final century. offers perception into the recent rules that emerged in art/literature within the modernist era.
