Invité aux Etats-Unis dans le cadre d'un programme d'échange culturel, le narrateur est coincé à Chicago tandis que sa famille et ses amis sont traqués par des tireurs d'élite dans Sarajevo assiégée.

i believe this e-book is terrific – tremendously bad. all people loves this book, and this astounds me. I completely hate it. The writing is jumbled, jam-packed with nasty depictions and sometimes indecipherable. it's a mix of history, biography and fiction. (But my opinion adjustments by the point De l'esprit chez les abrutis I succeed in the tip of the book, so please learn on!)Here is a bankruptcy that performs with the assassination of Archduke Franz Ferdinand:The horses are trotting stolidly and the trainer is bobbing steadily, and Archduke Franz Ferdinand's eyelids are listlessly sliding down his corneas. The weighty eyelids are approximately to arrive the bottom, yet then the pony at the left increases its tail - embarrassingly just like the tussock at the Archduke's resplendent helmet – and the Archduke can see the horse's anus slowly opening, like a digicam aperture.....The left horse is losing turds like dark, deflated tennis balls. (page 89)This is to be come De l'esprit chez les abrutis across first and foremost of the tale entitled the "Accordion". I don't locate this relaxing to read. One such description i will take, yet repeatedly, over and over, this i locate disgusting. i'm convinced you know that the writer is fiddling with the facts, because the Archduke used to be assassinated touring in a car. The writing is taken into account "experimental". i will be able to do with no such experiments.In a narrative known as "Islands", a toddler is speaking:I went down the steps and introduced my thirst. Aunt Lyudmila walked over to the darkish nook on my right-hand facet - all of sudden the sunshine was once ablaze – and there has been a De l'esprit chez les abrutis concrete field with a wide wood lid. She took off the lid and grabbed a De l'esprit chez les abrutis tin cup and shoved her arm into the square. I went to the water tank (for that's what it relatively was) and peeked over. I observed a white slug at the contrary wall. i couldn't inform no matter if it was once relocating upward or it was once simply frozen by way of our unexpected presence. The dew on its again twinkled, and it seemed like a severed tongue. i peeked at Aunt Lyudmila, yet she didn't appear to have spotted anything. She provided me the cup, yet I shook my head and refused to drink the water which, besides, appeared turbid. in order that they introduced me a slice of chilly watermelon and that i drowsily masticated it . (page 8-9)So inform me, does a 9 yr outdated converse with those words: masticated, turbid, "announced De l'esprit chez les abrutis my thirst"? each paragraph, if now not each sentence is gruesome. And for what purpose? simply to be "experimental"? As i discussed above the writing is jumpy and confusing. what's the element with all this depiction of horrid situations? Why? I see no very important message being imparted. Well, each person else turns out to understand, yet I do not. i don't enjoy, don't see De l'esprit chez les abrutis the purpose or the \$64000 message that's being imparted. So why am I splashing round during this muck?And then I got here to the story, "Blind Jozef & lifeless Souls". this can be longer than the others. it can be labeled as a novella. this is often approximately an émigré, a tender guy who has left Bosnia. He has long past to the States and he continues De l'esprit chez les abrutis to be there whereas the struggle rages in his domestic country. He reads of the Siege of Sarajevo of what's

taking place there to his relatives and formative years friends. It truly is approximately his emotions, the way it feels being separated from home, the way it feels in a weird culture, the place not anything makes sense, the way it is to be a foreigner in a weird land. It's also approximately how he sees lifestyles within the US. It truly is approximately the place he belongs. After all his perspectives on existence in the USA are absurdly precise and comical on the comparable time. This is often fantastic writing. It exhibits the way it feels to be a refugee. It's fun and poignant and unhappy all on the similar time. You're still acutely aware that this can be a similar writer of the shorter stories. The reader does realize the author's special style. I am blissful I learn the ebook to the end. I'd need to finish that the writer has a particular type and in at the least one of many tales I empathized, laughed and realized how existence as a shelter could feel. I'll provide the e-book 3 stars, simply because I cherished that one longer story. Only a notice: De l'esprit chez les abrutis of warning: don't anticipate a delicate cozy read. Please remember that I don't even like comforting reads..... I like to be grabbed, aroused, upset, moved through the books I read. Such books in reality convenience me by way of their skill to distract me!
